

## **TECHNICAL BULLETIN**

### **Textile Processing Compound**

Let You LEAD The Process

E-mail : [contact@nestorindustries.com](mailto:contact@nestorindustries.com)

**NESTOL-DR** is a copolymer-based product used as a versatile hand modifier. It gives durable finish, imparting body and fuller finish along with smoothness to the treated fabrics. It can be used on all kinds of textile fabrics.

#### **PROPERTIES:**

PHYSICAL APPEARANCE	: Milky viscous liquid.
IONIC NATURE	: NON-IONIC.
pH	: 6.5 – 7.
COMPATIBILITY	: Compatible with all textile finishing agents.
SELF LIFE	: Six months. After use container should be closed properly

#### **ADVANTAGES:**

- **NESTOL-DR** makes fabrics feel heavy and bulky.
- Use of **NESTOL-DR** in the finish recipe reduces chances of chalk marks appearing on the treated fabrics.
- **NESTOL-DR** gives body and fullness without giving harshness and stiffness associated with other body building agents.

#### **DOSAGE:**

10 gpl - 50 gpl of **NESTOL-DR** is recommended depending on quality of the fabrics and type of the finish desired.

#### **PRECAUTIONS:**

The chemical nature of **NESTOL-DR** requires stirring of the product before using each time.

**PACKING :-** 50 kg HDPE carboys.

The product appearance varies from batch to batch. The colour & viscosity may vary from batch to batch and its intensity is not an indication of product strength.

NONWARRANTY: The suggestions and data in this bulletin are based on information we believe to be reliable. They are offered in good faith but without guarantee, as conditions and methods of use of our products are beyond our control. We recommend that the prospective user determine the suitability of our materials and suggestions on an experimental basis before adopting them on a commercial scale.
